Australian Matriculation

Australian Matriculation (AUSMAT)

Australian Matriculation (AUSMAT) is a pre-university programme that offers flexibility to explore diverse academic and career interests. It remains one of the few globally recognised programmes. Contrary to popular belief, AUSMAT students frequently receive offers from universities in Hong Kong, New Zealand, U.K., U.S., Germany, Singapore and even public and private universities in Malaysia. Since 2012, enrollment for AUSMAT@MCKL has increased threefold, making it one of the top programmes of choice.

The Popular Choice for Pre-University

Keeping Options Open

AUSMAT allows students to pursue a wide range of degrees upon successful completion as opposed to Foundation programmes, which have limitations.

Continuous Assessment

Unlike A Level or Foundation programmes that focus on final exams, the AUSMAT programme accumulates all tests and quizzes to present the final ATAR score.

Recognised Worldwide

Thousands of students with the AUSMAT qualification successfully gain entry into local and global universities, ranging from Australia, U.K., U.S., Singapore, Japan and many more.

Strong Pre-U Foundation

With 5 subjects, AUSMAT gives students a robust foundation. Students have the flexibility of choosing subjects from different streams to cover various areas.

What is ATAR?

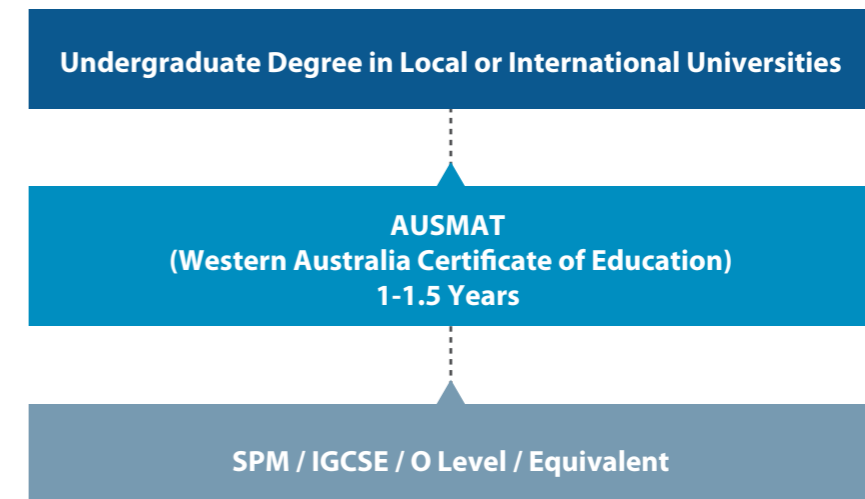

Grading System

AUSMAT students' final results will be a single score known as Australian Tertiary Admission Rank (ATAR). This score is derived from each student's best four subjects.

The ATAR score shows the ranking relative to other students from the same year. If a student achieves 99.0 ATAR score, it means that the student achieved higher results than 99% of students from the same year.

The Australian Matriculation (AUSMAT) is an internationally recognised pre-university programme. The School Curriculum and Standards Authority (SCSA) of Western Australia, on behalf of the Government of Western Australia, oversees the implementation of the AUSMAT programme according to SCSA guidelines.

The programme is well-structured with a balanced emphasis on coursework and external examinations. Academic scores are based on continuous school assessments and external examinations held in November.

Upon completion of this programme, successful students will be awarded the Western Australian Certificate of Education (WACE) and gain entries into top universities of their choice both locally and abroad.

Excellence Track Record

Recognised provider of AUSMAT for over 21 years with credible track record of 40% students scoring an ATAR above 80.

Dynamic University Placement Team

Experienced lecturers and university placement staff have successfully placed students in universities of their choice.

Holistic Learning Approach

Developing students holistically through Character Formation and Service Learning subjects, providing students with moral values along with academic excellence.

Balanced Assessment Structure

50% school-based assessments and 50% external examinations administered by the Department of Education, Western Australia.

Personalised Community

Concentrated class sizes that allow lecturers and students to build trust, along with AUSMAT Union Engagement to support students along the way.

Qualified & Experienced Lecturers

Our experienced and enthusiastic lecturers are qualified in their field and adhere to AUSMAT standards.

Future-Oriented Skills

The diversity of AUSMAT structure prepares and equips students effectively for university life, which inculcates lifelong learning skills and abilities to pursue various future careers.

 Excellence Award 2020 - ATAR 97.25

MCKL's environment and courses helped provide a wider worldview and expose students to different mindsets, lifestyles and concepts that enriched the mind. We became more self-aware of our position in society, helping us see more than just ourselves, and developing our character to become more well-rounded.

 Excellence Award 2020 - ATAR 98.95

I have been told countless of times that the lecturers at university will not coddle the students like they do in high school. They will not sit down with you to pinpoint and fix your every mistake. The lecturers at MCKL neither spoon feed us nor leave us to drown in a sea of information. This was a great start for me and my peers.
