

Pre-U Talk

# Why Don't Vampires Age?

**9 DEC  
2023**

**11AM  
-  
12PM**

**MCKL College**  
(Penang,  
Pykett Campus)

## INTRODUCTION

Sun exposure leads to skin damages like sunburn, hyper-pigmentation, photoaging and even skin cancers. According to World Health Organisation, 80% of a person's total lifetime sun exposure occurs before age 18. Therefore, it is important to raise awareness among teenagers of the dangers of UV radiation. One of the preventive measures to avoid sun damage is to apply sunscreen, but how does sunscreen work and how to choose the best sunscreen? Join the talk to find out more!

## WHAT YOU WILL ACHIEVE

- Explore the science behind skin aging, the impact of sun exposure and the chemical components in sunscreens.
- Learn practical tips on choosing the right sunscreen and understand how it works.
- Explore and cultivate interest in Physics subject as one subject of choice in their career pathway.

## METHODOLOGY

Lecture

Interactive  
Activities

Discussions

## WHO SHOULD ATTEND?

SPM  
Leavers

IGCSE  
Students

Secondary  
School Students

# FREE ENTRY

**1 HOUR  
INTRODUCTORY  
TALK**

## RSVP NOW!
